In the case of a continued hearing, persons previously notified and persons already heard need not be notified of the time of resumption of said hearing unless the Board so decides.

2402 DECISION OF THE BOARD

The Board shall decide all Variance and Exception applications within thirty (30) days after the final hearing.
- B.** The Board may approve, deny, or approve said request with appropriate conditions set forth and shall have all powers of the Zoning Administrator. - C.** A certified copy of the BZA decision shall be transmitted to all parties of interest. Such decision shall be binding upon and observed by the Zoning Administrator who shall incorporate the terms and conditions of the same in the permit to the applicant or appellant, whenever a permit is authorized by the Board.

- A.** The Board of Zoning Appeals shall have the power to authorize the issuance of a Zoning Permit for uses that are subject to performance requirements set forth in this Resolution.
- B.** The application for a Zoning Permit for a use subject to performance requirements shall be accompanied by a plan of the proposed construction or development. 2404 APPEAL

- A.** An appeal of the Zoning Administrator's decision to the Board of Zoning Appeals may be taken by any person affected and shall be submitted within twenty (20) days after said decision. The Zoning Department will then transmit to the

- B. BZA all documents on record that specify the grounds of the appeal, constituting the action appealed upon.
- C. An appeal shall stay all proceedings in furtherance of the action appealed unless the Zoning Administrator certifies to the BZA (after the appeal has been filed) that facts stated would cause imminent peril. If there is reason to believe that a stay would cause imminent peril, proceedings shall not be stayed unless by a restraining order. This may be granted by the Board or by a court of jurisdiction after notice to whom the appeal is taken and on due cause shown.
- D. The Board may, in conformity with the provisions of this Resolution, reverse or affirm wholly or partly, modify the order, requirement, decision, or determination appealed from and shall make such order, requirement, decision or determination as in its opinion ought to be made in the premises; and to that end, shall have all powers of the Zoning Administrator from whom the appeal is taken.

2405 EXCEPTION

In hearing and deciding appeals, the Board has the authority to grant an exception in the following instances:

- A. **Interpretation** of the provisions of this Resolution in such a way as to carry out the intent and purpose of the plan, as shown upon the map indicating the Zoning Districts, accompanying and made a part of this Resolution where the street layout actually on the ground varies from the street layout as indicated on the Zoning Map.
- B. **Reconstruction of a non-conforming building** when it has been damaged by explosion, fire, or act of God to the extent of more than 60% of its fair market value where the Board finds some compelling necessity requiring a continuance of the non-conforming use.
- C. **Parking lot/ parking space modification** or loading space requirements may be permitted where, in the particular instance, such modification would not be inconsistent with the purpose and intent of such requirements or to allow the following:
 1. The dual use of parking facilities (i.e. by stores during the day and theaters or other uses during the evening) and provided there is no overlapping of uses and spaces of the different peak parking demands and operating hours.
 2. The waiver of the requirement that automobile spaces be provided on the same lot with a dwelling, if other suitable and convenient parking space is available.
- D. **Public parking** in *A* or *Residential Districts*, or **storage garages** adjacent to any existing or proposed use in a multiple dwelling, commercial, or industrial district.
- E. Determine whether an **industry** should be permitted within an *M* Industrial District because of the methods by which it would be operated and because of its effect upon uses within surrounding Zoning Districts.

- F. The substitution of a **non-conforming use** existing at the time of enactment of this Resolution to another nonconforming use, if no structural alterations (except those required by law); no change shall be authorized to any use, which is not a permitted or conditional use in any District.
- G. **Temporary Structure and Use** The Board may permit the temporary use of a structure or premise in any district for a purpose or use that does not conform to the regulations prescribed elsewhere in this Resolution for the district in which it is located, provided that such use be of a temporary nature and does not involve the erection of a substantial structure.
 - 1. A Zoning Permit for such use shall be granted in the form of a temporary and revocable permit for not more than a twelve (12) month period.

2406 VARIANCE

The Board of Zoning Appeals shall consider the following:

- A. That due to exceptional narrowness, shallowness, or shape, or exceptional topographic conditions or other extraordinary situation or condition of a lot, the strict application of the terms of this Resolution would result in peculiar and exceptional practical difficulties.
- B. That special circumstances or conditions apply to the building or land in question are peculiar to such lot or property and do not apply generally to other land or building in the vicinity.
- C. That a variance from the strict application is necessary to relieve such difficulties or hardship and that such relief may be granted without substantial detriment to the public good and without substantially altering the intent of this Resolution.
- D. The granting of the application is necessary for the preservation and enjoyment of a substantial property right and not merely to serve as a convenience to the applicant.
- E. The condition from which relief or a variance sought did not result from action by the applicant.
- F. No variance may be applied for or granted which would allow a use that is not allowed in a Zoning District.
- G. The authorization of a variance will not impair an adequate supply of light and air adjacent to property or unreasonably increase the congestion in public streets, or increase the danger of fire or imperil the public safety or unreasonably diminish or impair health, safety, convenience, or general welfare.

2407 FINAL CONSIDERATION

After considering the factors as set forth in section 2406, the Board of Zoning Appeals shall have the power to issue and permit upon appeal in specific cases, filed as provided for herein, such variances from the provisions or requirements of the Sylvania Township Zoning Resolution which are permitted by Chapter 519 of the Ohio Revised Code as will not be contrary to the public interest, but only in such cases where, owing to specific conditions pertaining to a piece of land, the literal enforcement of the provisions of the Sylvania Township Zoning Resolution would cause unnecessary hardship. In making its decision, the Board of Zoning Appeals shall observe the spirit of the resolution and shall insure that substantial justice is done.

2408 VALIDITY

No order of the Board of Zoning Appeals granting a variance shall be valid for a period longer than two (2) years from the date of such order unless the building permit or zoning approval is obtained within such period, and the erection or alteration of a building is started or the use is commenced within such period. Applicants may submit to the Board of Zoning Appeals a request for an extension every two (2) years, commencing two (2) years after the date the initial variance was granted.
